Long Island Magnetic Resonance Imaging, PC

Long Island Medical Diagnostic Imaging, PC

Long Island Medical Imaging, PC

Zilkha Radiology is proud to announce the acquisition of the latest in premium level ultrasound imaging, the iU22 Ultrasound System from Philips Medical Systems for our West Islip and East Islip offices.

The system offers advanced imaging capabilities specifically beneficial in the evaluation of breast masses, thyroid, vascular, echocardiography and testicular exams. The system provides extremely high level of diagnostic information and can in some instances reduce the need for more invasive procedures. This advanced system is equipped with voice-activated control. It is equipped with 4D (or, real-time 3D) imaging.

The new system makes ultrasound exams much faster. It helps identify the nature of suspicious breast lesions sooner, utilizing new higher resolution, high frequency transducers, enhancing diagnostic capabilities. This reduces or eliminates the need for more invasive tests and procedures. It provides clearer ultrasound images especially in difficult-to-image patients and guides biopsy in 3D spaces without radiation exposure.

The new systems are now available in the West Islip and East Islip offices.

For more information or demonstration, please call Dr. Alain Zilkha at 631-277-1600.

Zilkha Radiology also offers:

- 3.0 Tesla Ultra High Field MRI Scanners
- Fiber Tractography & Fractional Anisotropy
- MR Angiography
- Breast MRI
- MR Guided Breast Biopsy
- PET CT
- 128-Slice CT Scanner
- Cardiac CTA
- Coronary Artery CTA
- CT Cardiac Scoring
- CT Angiography
- Virtual Colonoscopy
- Echocardiography
- Digital Radiography
- DEXA Bone Densitometry
- Digital Mammography (with large digital plate)
- Ultrasound/Color Flow Doppler
- Ultrasound Guided Breast Biopsy
- Ultrasound Guided Thyroid Biopsy
- Ultrasound Guided Neck Biopsy
- Ultrasound Guided Biopsy of the Liver, Abdomen, etc.
- Nuclear Medicine

Discover the difference. At Zilkha Radiology you receive compassionate care and the latest technology.

The offices are accredited by the American College of Radiology.

The facility is accredited to perform monitored anesthesia by Board Certified Anesthesiologists.

Late Evening & Weekend Appointments Available • Monday-Friday 7am-8pm • Saturday 8am-3pm
